Dear Mr. Virant,

We are coming back to you concerning one of your national record in short course 50m backstroke Women. The record of Anja Carman of 27.19 was achieved during a mixed relay competition. FINA does not recognize records achieved during mixed relays (Rule SW12.12).

Can you please kindly advise which would be your national record for this distance in this case?

Thank you very much for your collaboration.

Kind regards,
